

Dear Client,

Qatar Stock Exchange recently announced the 4th year of its recognition system that rewards excellence in Investor Relations. The system surveys the expert opinion of the domestic and international investment community to identify companies and individuals who display best practice.

The recognition system reflects Qatar Stock Exchange's desire to promote Qatar and its listed companies as adopting global standards in transparency and investor relations.

Qatar Stock Exchange has mandated Iridium, an independent Investor Relations advisory firm, to design a fair, transparent and credible framework for the recognition system, which will crown Qatar's best company overall for excellence in Investor Relations, the best small, mid and large cap companies, the best Chief Financial Officer, best Investor Relations Officer and a new award for best CEO as well as the top three company investor relations websites in the country.

In addition to mainstream institutional feedback Qatar Stock Exchange is seeking to create an additional element through the input of domestic and retail investors who are critical to our market in Qatar. We wanted to enlist your help in completing the attached Survey; the process is simple, should take only a few minutes and results will be collated automatically.
